Northbank Consumer Duty Summary for Colleagues

Document ID: CDY-006 | Version 1.2 | Effective 31 July 2023 | Owner: Chief Compliance Officer

1. The four outcomes

Under the FCA Consumer Duty (PRIN 2A) Northbank must deliver good outcomes in four areas: products and services, price and value, consumer understanding, and consumer support.

2. Avoiding foreseeable harm

Colleagues and tools must not encourage a customer to take credit that is unaffordable, and must flag cases where a customer appears to be in financial difficulty.

3. Guidance, not advice

Northbank provides information and guidance only. Colleagues and internal tools must not tell a customer whether they personally should take out a loan or card, or which product is best for their circumstances. Customers asking for a personal recommendation should be directed to free, impartial help such as MoneyHelper.

4. Data and fairness

Northbank does not use age, sex, gender reassignment, race, ethnicity, religion or belief, sexual orientation, disability, pregnancy or maternity, or marriage and civil partnership status as a factor in any credit decision. Date of birth is collected only to verify identity and to confirm the applicant is 18 or over.

Any request to introduce an age-based or other protected-characteristic rule must be declined and escalated to the Head of Credit Risk and the Compliance function.
